

Nitrile Examination Gloves

Latex free, powder free, non-sterile

HAIKA® NX510 are lightweight, ambidextrous, single-use medical nitrile examination gloves.

They offer healthcare professionals high performance barrier protection as well as supreme comfort and touch sensitivity.

Key Features

Secure Control

A textured surface enhances slip resistance and allows for a secure grip.

Supreme Comfort and Sensitivity

The lightweight and elastic nature of the nitrile delivers an excellent sense of touch and a comfortable wearing experience even when worn for long periods.

Effective Barrier Protection

Helps to protect users and patients from the transmission of infections.

Beaded Cuff

Durable beaded cuff design enables the glove to be donned and removed efficiently and securely.

Powder-free and Latex-free

Eliminates powder-induced irritation and makes it ideal for people with a Type I latex sensitivity.

Minimises the Risk of Allergic Contact Dermatitis

Free of Thiurams, Mercaptobenzotiazoles, Thiazoles and Thioureas.

Chemical Resistant

Tested in accordance with EN374-1:2016 for resistance to chemical substances.
Tested against chemotherapy drugs according to ASTM D6978-05.

EU Compliance

- MDR (EU) 2017/745 Class I
- PPE Regulation (EU) 2016/425 CAT III
- EN455
- Food Safe Regulation (EC) No 1935:2004 and EC 10/2011
